ORDER DUTCH BULBS NOW

For Fall Delivery

Orders to receive the benefit of the **Special Import Prices** should be placed before July 10th. By doing this we are enabled to place our bulk order very early and secure the top size bulbs from our growers in Holland.

Our claims of supplying the finest bulbs in the country are based on our reputation. For 50 years we have been forcing bulbs for the market in New York City—some years forcing as many as three-fourths of a million various varieties. Of course only the highest quality is used, much superior to that sent out by seed and bulb houses.

We have arranged this season to import in addition to our usual importations, bulbs for our many patrons, in order to give them the benefit of our matchless quality.

The prices quoted are subject to a discount of 5 per cent, if cash accompanies order. This discount does not apply after July 1st.

Bulbs are sent at purchasers' expense, packing free.

If thou of fortune be bereft,
And in thy store there be but left
Two loaves; sell one, and with they dole
Buy Hyacinths to feed thy soul.

—Sadi.

THE BULB GARDEN

To succeed with bulbs requires less care and work than any other branch of gardening. The main essential is a proper start—this means proper bulbs. It is impossible to have success without first procuring the best obtainable and we are endeavoring to do this portion of your task—that is securing for you the finest bulbs in the Holland markets.

No garden is too small for planting Bulbs and they succeed everywhere—in the city yards or the country estate. They are surely Democratic.

Any good garden soil will do for growing Bulbs, but they prefer a light well drained one.

In planting be careful to set the Bulbs deep enough, as a general rule from 1½ to 2 times their own depth. This rule may be modified to suit local conditions.

Never use fresh or half rotted manure when planting as this will burn the bulbs and start decay.

In the vicinity of New York a slight covering should be provided over winter, but care should be taken that this is not too heavy as the Bulbs will start to grow and may be killed by late frosts or severe weather. Leaves or strawy manure or salt meadow hay are the best covers possible.

FOR FORCING

To force bulbs properly and with excellent results does not require a great deal of skill, but a few simple rules must be followed if success will be had.

In order to be of most assistance we are having printed for distribution this Fall, a complete set of Cultural Directions for Spring Blooming Bulbs. One of these folders will be sent with each order. Explicit directions for successful growing will be given.

NAMED DUTCH HYACINTHS

All Hyacinths supplied by us are strictly Top Size—the very highest grade quality obtainable. We have been careful to select only varieties that succeed under all conditions. Our Hyacinths are selected from the long list of varieties of the leading specialists in Holland and contain the finest varieties extant. Full Cultural Directions for growing both Indoors and Out are supplied with order.

All First Size Named Dutch Hyacinths \$0.22 each; \$2.25 per doz.; \$17.00 per 100.

SINGLE PINK AND RED SHADES

Cardinal Wiseman. Dark pink; large compact spikes.

General de Wet. Large loose spikes of lovely light pink.

Gertrude. Deep rose pink.

Queen of Blues. A perfect variety for forcing or planting in the garden. Delicate Azure Blue.

1 each of the above 9 varieties \$1.50

Spike of Dutch Hyacinth

NAMED DUTCH HYACINTHS (Continued)

SINGLE YELLOW

Buff Beauty. Buff orange yellow.

City of Haarlem. Purest golden yellow. Large well-formed truss.

King of Yellows. Rich deep yellow.

Yellow Hammer. The best yellow. Golden yellow trusses.

1 each of the above 4 varieties \$0.75

3 each of the above 4 varieties \$2.05

SPECIAL GARDEN HYACINTHS

The following list has been made up especially for outside culture. All varieties have been selected for color blending and only after thorough tests as to hardness in our climate.

	Each.	Dozen.	Hundred
Pink and Red Shades	\$.10	\$1.00	\$8.00
Blue Shades10	1.00	8.00
White Shades10	1.00	8.00

MINIATURE OR DUTCH ROMAN HYACINTHS.

The ideal bulbs for growing in pans or shallow boxes. A great many can be crowded together and when in bloom the effect will be strikingly beautiful.

This type should be selected for forcing.

	Each.	Dozen.	Hundred.
Pink Shades	\$.05	\$0.55	\$4.25
Blue Shades05	.55	\$4.25
White Shades05	.55	\$4.25

ROMAN HYACINTHS

Roman Hyacinths should only be used for forcing indoors as they are not hardy. They offer the finest materials for early flowering and if potted up immediately upon receipt may be had in flower for Christmas. By bringing into bloom a few pots or pans at a time, flowers may be had continuously through the winter.

We have discarded all but the white variety as the others are inferior in color and spikes. Prices quoted are for early delivery.

	Each.	Dozen.	Hundred.
Roman Hyacinths. Pure White. Mammoth Bulbs	\$.15	\$1.50	\$12.00

PREPARED DUTCH HYACINTHS

The following list comprises our exclusive list of Dutch Hyacinths prepared for early forcing. These may be had in flower fully a months before the regular Dutch varieties. The bulbs are extreme Top Size. The largest in size we have ever sent out.

	Each.	Dozen.	Hundred.
Gertrude. Dark Pink	\$.25	\$2.50	\$20.00
Garibaldi. Dark Red25	2.50	20.00
Lady Derby. Lovely delicate pink26	2.75	21.00
Capt. Boynton. Bright lavender25	2.75	20.00
Grand Monarque. Blue26	2	21.00
Schotel. Soft, light blue25	2.50	20.00
Linnocence. Pure White26	2.75	21.00
A. Arendsen. Snowy White26	2.75	21.00

THE MADONNA OR CANDIDUM LILY

This is without a doubt the most popular and beautiful of all outdoor Lilies. The snow white flowers are freely borne on tall straight stems and are most fragrant. It grows from three to four feet high and blooms in June in the open ground. In order to flower Lilium Candidum must make a fall growth and for this reason the bulbs should be planted as early in the fall as possible. In a usual season we receive our stocks during the end of August or early in September, and send out the bulbs immediately. They should be planted upon receipt.

Extra Large Bulbs \$1.75 per doz; \$12.50 per 100.

SUPERB DARWIN TULIPS

Queen of all Tulips

Darwin Tulips are the most striking and beautiful of all Tulips, excelling in colors, form of flowers, and having fine, stiff, straight stems, often twenty-eight to thirty inches in height. They flower later than any other type, being at their best in the vicinity of New York from May 10 to the 20th. At this time a bed of Darwins is a glorious sight to behold and one which lends color to the entire garden, especially when brought into contrast with the bright new foliage with which all trees and shrubs are at that time unfolding.

When used as a planting in front of shrubbery, they are particularly effective.

For forcing they are supreme, being at their best for Easter.

Varieties suitable for forcing are marked (*).

	Each	Dozen	Hundred
Ariadne. Brilliant rosy scarlet with blue base. An enormous cup-shaped flower held upright by a tall, strong stem. Very Showy	\$.07	\$.70	\$ 5.00

*Wm. Copeland. Lilac rose. A medium size flower; one of the earliest to flower. Excellent for forcing13	1.25	9.50
*Wm. Pitt. Brilliant carmine. One of the largest and finest of all11	1.20	9.00

FINEST MIXTURE OF DARWIN TULIPS

Not being content with the usual cheap mixtures, we have made up our own mixture from 150 named varieties, grown especially for this superb assortment. The varieties selected and used are chosen especially for outdoor culture and should never be used for forcing.

Per Doz., \$40; per 100, \$3.00; per 500, \$14.00.

SPECIAL COLLECTION OF NAMED DARWIN TULIPS

Each special Collection contains the finest varieties of Superb Named Varieties of Darwin Tulips from the above list. We reserve the right to select the varieties, but assure an even assortment in the best shades and colors. Try one of these Special Collections or send one to a garden loving friend. We will send it with your card at just the right time for planting. (Collections only may be ordered until July 15).

Collection A.—24 bulbs—3 each of 8 varieties. Our Selection \$1.10

Collection B.—60 bulbs—6 each of 10 varieties. Our Selection \$2.50

Collection C.—144 bulbs—12 each of 12 varieties. Our Selection \$5.25

BREEDER TULIPS

In this class of late flowering Tulips, we find many rare and interesting colors and shades not found in any other class. This type contains the most artistic colorings, describable only as antique or art shades—being many shadings of terra cotta, buff, bronze, purple and maroon.

The shape of the flowers resembles that of the Darwins and they are borne on long, stiff and erect stems.

Breeder Tulips are excellent for arranging with either Darwins or Cottage Tulips, for artistic color effects in the garden.

	Each	Dozen	Hundred
Apricot. Dull, bronzy buff, shaded ruddy apricot, with olive base; large flower	\$.18	\$1.75	
Bronze Queen. Golden bronze with yellow center11	1.10	\$8.00
Cardinal Manning. Dark rosy violet, flushed rose brown07	.75	5.50
Don Pedro. This unique lovely Tulip, with its coffee-brown, maroon shaded flowers, is one of the most attractive of all Tulips60	5.50	
Jaune d'OEuf. Ruddy apricot with yellow edge09	.90	7.00
Medea. Glorious salmon red. Splendid variety06	.65	5.00
Prince of Orange. Orange scarlet, edge lighter red07	.70	5.50

MIXTURE OF BREEDER TULIPS

This mixture is made up to give a good assortment of color and good type of flowers at a reasonable outlay of money. All of the best colors and shades are included.

Per Dozen, \$0.45; Per 100, \$3.25; Per 500, \$15.00.

PARROT OR DRAGON TULIP

So called from the markings and colorings of the flowers. They are late in blooming and the flowers are cut and fringed and colored in many shades with fanciful markings.

Parrot Tulips should be used principally for borders or planting in the shrubbery. Never use for forcing.

Per dozen, \$0.40; Per 100, \$3.00.

COTTAGE GARDEN OR MAY-FLOWERING TULIPS

A very charming and beautiful class of late flowering Tulips containing colors not found in any other class. No planting is complete without some of these bright and cheery sorts.

The flowers appear at the same time as the Darwins and Breeders and can be used with striking beauty in plantings with either of these types to create artistic color effects.

They are extremely hardy and prove valuable for planting in any spot in the garden.

	Each	Dozen	Hundred
Bouton d'Or (Ida). Deep golden yellow; cup shaped flower ..	\$.05	\$.45	3.50
Elegans. Brilliant crimson yellow base; recurving petals; forces easily05	.55	4.25
Ellen Willmott. Primrose yellow. The flower is long and narrow with slightly reflexing petals. Tall, straight stem06	.65	5.00
Fairy Queen. Rosy heliotrope, with broad amber yellow margin05	.45	3.50
Gesneriana Spathulata (Major). One of the most popular of all. Dazzling scarlet with blue base, flowers are very large and last a long time06	.55	4.25
Gesneriana Lutea. Deep golden yellow flowers of perfect form ..	.05	.50	4.00
Inglescombe Pink (Salmon Queen.) Soft rose, flushed salmon; turning deeper as the age of the flower progresses05	.50	3.75
Inglescombe Yellow (Yellow Darwin). Goblet shaped flower of glossy, canary yellow06	.55	4.50
Isabella (Shandon Bells). Creamy white, edged rose. As the flower progresses, the whole flower becomes rose05	.50	4.00
John Ruskin. A beautiful and rare variety; a blending of apricot rose and mauve with a pale yellow edge10	1.00	8.00
La Merveille. The largest of all Cottage Garden Tulips; flower orange scarlet flushed rose05	.50	4.00
Orange King. Large, sweet scented flowers of bright deep orange06	.65	5.50
Picotee (Maiden's Blush). Snow white, bordered soft pink on the extreme of each petal. A most popular variety..	.05	.50	3.75
Retroflexa A unique urn-shaped flower of a charming yellow05	.55	4.00
Royal White. The largest of all late White Tulips07	.70	5.50
The Fawn. Pale rosy fawn, changing to blush rose. A delicate and pleasing color05	.45	3.75
Viridiflora (The Green Tulip). Flowers green, edged yellow; large, odd and handsome10	1.10	8.50

Superb Mixture of Cottage Garden Tulips.

A mixture made up to contain all of the best shades of this type of Tulips. The colors have been chosen to blend well together.

Per dozen, \$0.35; per 100, \$2.50; per 500, \$11.50.

SPECIAL SELECTED COLOR BLENDED COLLECTIONS OF OLD-FASHIONED COTTAGE GARDEN TULIPS

For all to have a liberal number of these beautiful old friends in our gardens, we have made up the following collections. Each collection is chosen to contain only colors blending well together, to create an artistic and beautiful effect in the garden.

For a present they are ideal. Let us send one to a garden loving friend at planting time with your card. Could anything carry a finer feeling of remembrance? Imagine the pleasure when in full bloom.

Collection A. 90 Bulbs. 9 each of 10 varieties. Our selection \$2.95
 Collection B. 144 Bulbs. 12 each of 12 varieties. Our selection \$4.40
 Collection C. 240 Bulbs. 20 each of 12 varieties. Our selection \$7.75

SINGLE EARLY TULIPS

Fine for Forcing or Bedding

This class of Tulips comprises the easiest of all to force and the best for early blooming in the garden. A bed of these bright colored Tulips is a delight in the early Spring. Never use mixtures for forcing.

	Per Dozen	Per Hundred
Superb Mixture of All Colors	\$0.35	\$2.75

Toreador. Reddish orange, yellow border	1.40	10.00

NARCISSUS—DAFFODILS

For permanent plantings nothing can surpass, or even equal, Daffodils or Narcissus. They go on flowering year after year, improving in size and number continually.

For planting among shrubbery, or naturalizing in an endless number of ways they are of inestimable value to the gardner.

Most varieties are easily forced and give good results when grown in this way.

Our free Cultural Directions will be sent with each order, giving directions for the care of the different types.

The Four Finest New Narcissus

	Each	Dozen	Hundred
Van Waveren's Giant. The largest of all trumpet Daffodils. A glorious and magnificent flower lasting in bloom longer than any other and blooming profusely year after year. The perianth is primrose with a bright yellow trumpet. Special Price	\$.20	\$2.25	\$17.50

Flora Wilson. Pure white perianth, yellow cup, edged orange scarlet65	5.00
Maurice Vilmorin. Creamy white perianth, cup rather long and heavily stained scarlet60	4.50

Miniature Daffodils or Jonquils

This type has fine foliage and produces its flowers in clusters.

Jonquils Single. Sweet Scented40	2.75
Jonquil Campernelle. Golden yellow; fragrant40	3.00
Jonquil Campernelle Rugulosus. Larger than the Campernelle45	3.50

The Incomparable Daffodil.

Cynosure. Cup and perianth sulphur white, cup stained orange scarlet55	4.00
Queen Bess. Earliest of all; perianth pure white, cup pale yellow60	4.50
Sir Watkin (Welsh Giant Daffodil). Immense flowers. Perianth sulphur yellow, cup yellow tinged bright scarlet80	6.00

Leedsii Daffodils

Minnie Hume. A splendid variety for massing in the garden or naturalizing. Starry white perianth, cup pale yellow.....	.50	4.00
Mrs. Langtry. A free flowering variety with broad white perianth, large white cup, edged bright yellow. A very popular sort50	4.00
White Lady. A handsome variety with broad white perianth, dainty cup of pale canary yellow prettily crinkled80	6.50

POET'S DAFFODIL

The most popular types for planting in masses in the garden. No garden should be without some of these beautiful Poet's Daffodils. They succeed well everywhere and increase year after year.

	Per Dozen	Per Hundred
Poeticus Type (Pheasant's Eye). Used only outdoors45	3.00
Poeticus Ornatus. Larger than the foregoing and a week earlier to bloom. Used both for garden effect or forcing50	3.50
Poeticus King Edward VII (Almira). An improved Poeticus Ornatus75	6.00
Poeticus Poetarum. Pure white perianth, bright orange scarlet cup60	4.50

POETAZ NARCISSUS

A new race of quite recent introduction. A cross between the Poeticus and Polyanthus types with the result that in this new class we have stems which produce from three to eight flowers, often larger than Poeticus and perfectly hardy.

For pot culture or garden planting this type offers valuable new material.

Aspasia. Perianth pure white, with yellow eye—slightly edged red55	4.00
Elvira. Very long stemmed variety; white with yellow eye55	4.00
Klondyke. Yellow with deep yellow eye70	5.50

POLYANTHUS NARCISSUS

Paper White Grandiflora

The most popular of all Narcissus for forcing. These are far superior to the old "Chinese Sacred Lilies" and will be found easier and better to grow both in pots or in bowls with water and pebbles.

If forced slowly in a cool light room they will develop strong flower stems and a myriad of beautiful white star-like flowers.

A succession of flowers can be had throughout the winter by planting about every two weeks.

Extra Large Bulbs only. \$0.45 per dozen; \$3.25 per hundred; \$28.50 per 1000.

CROCUS

When the bright cheery faces of the Crocus make their appearance all gloom of Winter is past, and even snowstorms, which sometime follow, can never make us realize that Spring is not with us.

No grounds should be without Crocus. Their beauty comes so early they can be said to awaken the entire garden to activity for the new year's work.

When planted in the grass they will go on blooming and multiplying year after year.

Our varieties have been chosen very carefully to give the best results possible for the amateur.

We offer none but named varieties, as these are the only ones to give the best results.

All Crocus \$0.30 per dozen; \$2.25 per 100; \$20.00 per 1000.

Baron Brunow. Dark blue.

Caroline Chisholm. Pure white.

Dandy. Blue, edged white.

Kathleen Parlow. Purest white.

King of Whites. White.

Mammoth Golden. The best yellow.

Maximillian. Pure porcelain blue. Largest of all.

Mont Blanc. The most popular white.

Pallas. White feathered light lilac.

President Lincoln. Large dark purple.

Scipio. White outside, purple base and mauve stripes. Extra fine.

FREESIA PURITY

Freesias have long been popular for growing in the house or conservatory and are valuable material as they force readily and can be had in flower for Christmas. By having a number of pots stored away in the cold frame or a cool cellar they may be brought in a few at a time and flower in succession throughout the winter.

Our strain of Purity is distinct and greatly improved, producing sprays of purest snow white flowers of delightful fragrance and immense size.

Extra Size Bulbs \$0.40 per doz.; \$2.75 per 100; \$25.00 per 1000.

LILIES FOR FORCING

LILIUM GIGANTEUM.

The largest of all white Japanese Lilies. Stems grow 2 to 3 feet high. Plant is of sturdy growth. Shipt. October—December. Special prices quoted for delivery at any date from cold storage.

Extra Sized Bulbs 8-10 in. \$25.00 per 100

LILIUM HARRISII

A very popular type for forcing. Flowers are pure white and delightfully fragrant. Can be forced in time for Christmas if potted up immediately upon receipt.

Extra Sized Bulbs (Our Best Strain) \$27.50 per 100

POT-GROWN STRAWBERRIES

(For Summer Delivery).

Pot-grown Strawberry Plants are much superior to the ordinary ground layers usually sold, as there is no loss of fine roots in taking them up. They can be transplanted at any season with scarcely any check to their growth.

Brief Cultural Directions

Strawberries require rich, well tilled soil. The plants should be set 15 inches apart in rows 2 ft. apart. Firm the plants well in the soil, keeping them well cultivated and cut off runners.

EVERBEARING OR FALL FRUIT VARIETIES.

Americus. A new variety of thrifty growth. A good yielder. Fruit of medium size.

Progressive. Round deep crimson berries. Begins to yield with second earlies and yields vast quantities until late Fall.

Superb. Rich blood red berries.

Prices of the above \$0.90 per dozen; \$6.00 per 100.

STANDARD VARIETIES

Varieties marked "P" have pistillate or imperfect flowers and must be planted near perfect-flowering varieties in order that the flower may fertilize.

August Luther. One of the best earlies. Berries are uniform, dark red; firm.

Barrymore. Resemble the variety Marshall, but is a better berry.

Bederwood. A good early, always producing a large crop. Fruit is large, conical, bright red.

Brandywine. Mid-season to late. Excellent large firm and solid berries.

Chesapeake. A fine Strawberry. Very fine form as late as "Gandy" and in flavor equal to "Marshall" and "Wm. Belt."

Climax. Berries are large, nearly round, very firm.

Commonwealth. A valuable extra large variety. Fruit is dark red and juicy.

Early Jersey Giant. Very early variety with large scarlet-crimson berries. Plants of vigorous growth.

Excelsior. An extra early with large, firm fruit.

Gandy. The standard late variety. Large, firm berries of finest flavor.

Glen Mary. A large sized berry of the finest quality.

Joe Johnson. Large berry of the finest flavor.

Kellogg's Premier. A new variety ripening very early and continuing for a long time. The largest berries of any early variety. Fruit is very firm, making it good for shipping.

Per Dozen, \$0.75; per 100, \$5.00

Late Jersey Giant. Resembles Early Jersey Giant, but fruiting later.

McAlpin. Late, large berries, heavy yielder.

Marshall. One of the richest flavored berries of all. Always a leader.

Michel's Early. A robust grower, excellent flavor.

Nick Ohmer. Medium to late. A superb variety for the home table.

Senator Dunlap. Medium to late. Fruit is large, dark red and of fine flavor.

Sample. (P) Late. Round dark crimson berry of extra good quality.

Sharpless. Mid-season. Berries are large, moderately firm and of good flavor.

Steven's Late. A new variety yielding large crops of fine berries.

Success. The best of the large, early varieties. The plant is exceptionally vigorous and prolific. Berries are firm, bright crimson.

Per Dozen, \$0.75; per 100, \$5.00

Warren. Large and handsome fruit.

Wm. Belt. Berries are always of a good size and quality; flesh is solid, meaty, deep crimson in color. Begins to ripen early and continues late in the season.

Prices for the above, except where noted, per Dozen, \$0.70; per 100, \$4.50.

THE HARDY GARDEN FROM SEED

By sowing seeds of Perennials and Biennials at this season of the year you will gain an entire year in your gardening plans. Next year the plants will be thoroughly established and will equal in flowering, the plants transplanted this Spring.

Seed should be sown thinly in a cold frame, and as soon as the young plants are large enough to be handled, they should be transplanted about three or four inches apart in the frame.

In the early Fall, preferably during September, they can again be transplanted to where they are wanted in the garden, or else left to winter over in the frame and be transplanted early in the Spring.

Protection should be provided for the young plants in the nature of a covering of leaves, straw or salt hay to the depth of about six inches.

For complete descriptions of the items in the following list, refer to our Spring Catalog.

- 7010 **Achillea Ptarmica fl. pl., The Pearl.** Pure white double flowers in great profusion throughout the summer. 2-2½ ft. Pkt. \$0.10; Large Pkt. \$0.25
- 7950 **Anthemis Kelwayi.** A useful plant for cutting. Crowned with an abundance of Daisy-like flowers in June. 2 ft. Pkt. .10
- 7860 **Alyssum Saxatile Compactum.** Yellow flowers in greatest profusion during May. 1 ft. Pkt. .10
- 7860 **Anchusa Italica, Dropmore Variety.** A striking plant, producing spikes of gentian blue flowers during June. 4 to 5 ft. Pkt. .10
- 7910 **Anchusa Italica Opal.** Similar to above, but having turquoise blue flowers. Pkt. .10
- 7930 **Anemone St. Brigid.** These beautiful Irish poppy-flowered Anemones produce an abundance of large, single, semi-double and double flowers, in many beautiful shades, throughout the garden year Pkt. .25

Aquilegia (Columbine)

The Columbines are one of the most elegant and beautiful of all hardy plants, and are indispensable for the hardy border or for cutting. They will grow and thrive in sunny positions as well as in shady nooks and corners.

- 8005 **Mrs. Scott Elliott's Strain.** Long spurred hybrids. A renowned Scotch strain that enjoys a world wide reputation for the choicest flowers in the greatest possible array of colors. Our seed is from the originator Pkt. .25
- 8030 **Coerulea.** Enormous flowers of blue and white. 2½ ft. May and June. Pkt. .10; Large Pkt. .25
- 8050 **Delicatissima.** Light yellow, passing to satin pink. Pkt. .25
- 8035 **Flabellata.** New dwarf form, covered with white flowers early in the Spring. Pkt. .10; Large Pkt. .25
- 8070 **Haylodgensis.** Long spurred hybrids in pleasing shades. Pkt. .10; Large Pkt. .25
- 8000 **Roehrs' Long Spurred Hybrids.** Seed selected from the choicest plants growing in our nurseries Pkt. .25
- 8100 **Arabis Alpina (Rock Cress).** Pure white flowers. 9 in. April—May. Pkt. .10
- Bellis Perennis (English Daisy).** The popular hardy plant for early spring gardens. Splendid for rockery, hardy border or as a ground covering under Tulips, etc.
- 8280 **Giant Pink** Pkt. .10; Large Pkt. .25
- 8275 **Giant White** Pkt. .10; Large Pkt. .25
- 8285 **Giant Mixed** Pkt. .10; Large Pkt. .25
- Campanula (Bell Flower)**
- 8385 **Carpathica (Carpathian Hare Bell).** Dwarf variety covered during July and August with blue cup-shaped flowers Pkt. .10; Large Pkt. .25
- 8390 **Carpathica alba.** White Pkt. .10; Large Pkt. .25

Campanula (Cont'd.)

PLANT POT-GROWN DAHLIAS FOR IMMEDIATE EFFECT

Our collection of Dahlias is one of the finest in existence and contains the choicest varieties obtainable.

This season we have had a remarkable sale of these Dahlias from pot grown plants and are unable to offer our entire list of varieties; but instead we will be glad to make up selections to suit the most critical flower lover.

All plants are pot grown and can be shipped immediately upon receipt of your order unless we are entirely sold out. Prices—Dahlias, our selection of varieties. \$.25 and \$.35 each;; \$2.50 and \$3.50 per dozen.

We can supply the following types: **Cactus, Paeony Flowered Decorative, Singles.**

In ordering, please state which types are preferable.

HERBACEOUS PLANTS IN POTS

For Delivery During June and July.

For the convenience of our patrons who wish to make a garden during the summer months or to improve their summer gardens we have grown especially the following list of Hardy Old-Fashioned Flowers, prepared for shipping now.

All plants listed below \$0.25 each; \$2.00 per dozen. Except where noted.

Achillea Ptarmica, Boule de Neige. Compact habit; double white flowers. 1 ft. June to September, \$0.30 each; \$2.75 per dozen.

Ptarmica fl. pl. The Pearl. One of the most useful of all border plants. Pure white double flowers are produced in great profusion throughout the summer. 2-2½ ft.

Anchusa italica, Dropmore Variety. A striking plant producing spikes of gentian blue flowers during June. 4 to 5 ft. \$0.25 each; \$2.50 per doz.

italica, Opal. Similar to the above, but with turquoise-blue flowers 4 to 5 ft.

italica, Perry's Variety. A variety with very large deep blue flowers borne on spreading branches, 4 to 5 ft., \$0.35 each; \$3.50 per doz.

Caryopteris mastacanthus. Blue Spirea. A dwarf, compact shrub with grayish foliage, being covered during fall with trusses of lavender-purple flowers, 2 to 3 ft. \$0.30 each; \$2.50 per dozen.

Campanula Pyramidalis. Blue flowers on massive spikes. 4 to 6 ft. July. Aug.

Alba. White variety of the above.

Chrysanthemum. Hardy Pompon and Japanese Varieties. The development of the hardy Chrysanthemum has made it possible to have the garden bright with flowers long after the majority of hardy herbaceous plants are past. The various colored flowers are excellent for cutting. We can supply Chrysanthemums in all colors.

Chrysanthemum maximum (Shasta Daisy). \$0.25 each; \$2.50 per doz.

Euphorbia (Spurge) corollata. White flowers in great profusion on much branched stems. Invaluable for cutting. 2 to 3 ft. July-Aug.

Geum Coccineum. Brilliant scarlet flowers, borne on branching stems. 1½ ft. May to Sept.

Lychnis Viscaria splendens fl. pl. Double crimson-scarlet flowers of an intensity that has no equal in any plant. 1 ft. June \$0.25 each \$2.50 per doz.

Myosotis palustris semperflorens. Blue flowers in May and June. The flowering period may be much prolonged by growing it in a moist shady position. \$0.15 each; \$1.25 per dozen.

Oenothera Fruticosa. One of the showiest of hardy perennials, being densely covered with bright yellow flowers. June and July. 1½ ft.

Plumbago Larpentea. A dwarf, tufted plant, with dense masses of thin wiry stems, each one terminating in a closely arranged cluster of cobalt-blue flowers from August until frost. 1 ft.

Papaver nudicaule. (Iceland Poppy). Dwarf, free-flowering plants, varying from white through yellow, to orange. 1 ft. May to August.

Physostegia virginica. Erect spikes, densely covered with soft pink, tubular flowers. 3 to 4 ft. July, Aug.

Physostegia virginica alba. A white variety of the above.

Salvia Pratensis. An old favorite, with branching stems of rich violet-blue flowers. 2 ft. June to Aug.

Senecio pulcher. Heads of crimson purple flowers with golden centers are freely borne on stout erect stems from August to October. 1½ to 2 ft. \$0.25 each; \$2.50 per dozen.

Veronica rupestris. One of the best trailing plants. It produces masses of wiry prostrate stems, each one terminating in a cluster of deep blue flowers. May-June.

spicata. Blue flowers. 1½ ft. June-July.

spicata rosea. A pink variety.
